

## ORBITAL THRU BOLT ANCHORS

Product Name	Orbital Thru Bolt Anchors
Product Identifier	MXB (diameter x length) (finish) e.g. MXB12X100G

### Product Description & Scope of Use

Thru Bolts, also known as wedge anchors, are mechanical expansion anchors designed primarily for light to heavy-duty anchoring in solid concrete only. They are made up of four parts: the anchor body, the expansion clip, a nut, and a washer. Once thru bolts are installed, they cannot be removed without destroying the concrete. Orbital offers a selection of sizes and finishes that are suitable for both interior and exterior use.

### Conditions of Use

The responsibility for choosing the correct size/diameter and finish of the product, as well as applying the appropriate torque during installation in accordance with the application's requirements, rests with the user.

### Manufacturer Details

Procurement at Orbital involves sourcing products from a diverse range of manufacturers, including countries such as China, Taiwan, Australia, and a curated assortment of European nations. For specific details regarding the manufacturer pertinent to the LOT you intend to purchase, please reach out to our office for further information and clarification.

## Relevant Building Code Clauses

"B1 Structure – B1.3.1, B1.3.2, B1.3.3 (b, d, e, f, g, h, j, q), B1.3.4"	Compliance with B1 Structure is contingent upon the design crafted by the designated professional, such as a consulting structural engineer or architect. Design data is accessible to these professionals to ensure compliance with the provisions stipulated in NZS 3101.1&2:2006 and NZS 3109:1997. Refer to the AS/NZ standard and installation requirements for further information.
"B2 Durability – B2.3.1 (a)"	The product is offered in multiple coating options or in stainless steel. Compliance with B2 Durability is contingent upon the selection of the most appropriate coating or material, in accordance with the specific application. This decision should be based on the required durability for the intended use, taking into consideration the environmental conditions in which the product will be situated. This should be made by the designer.
"F2 Hazardous building materials – F2.3.1"	These products are safe when handled and do not contain or emit harmful materials. There are no requirements for this product in order to comply with Acceptable Solution F2/AS1, First Edition Amendment 3, 2017.

## Warnings & Bans

Orbital can confirm that these products are not subject to a warning or ban under section 26 of the Building Act 2004.
